

BRINGING CLARITY TO THE COMPLEX

Overview

Compass Lexecon is a world-leading economic consultancy providing law firms, corporations, and government clients with clear analysis of complex economic and finance issues. We provide critical insight in legal and regulatory proceedings, strategic decisions, and public policy debates. Established in 1977, Compass Lexecon has over 650 professional staff globally, including 180+ Ph.D. economists in 23 offices.

Who We Are

Our experts are known for their **integrity**, **creative thinking**, and **exceptional quality work**.

Our experts have advised clients in the most high-profile cases before regulatory agencies and courts in 90+ countries and worked for 49 of the current Fortune 50 companies.

We have received the **Competition Economics Firm of the Year Award** by *Who's Who Legal* for seven consecutive years.

Expertise in Antitrust & Competition

We develop a thorough understanding of the issues clients face and apply **relevant economic theory** to produce **compelling empirical evidence**. Our working approach is firmly grounded in shared values of integrity and excellence.

Conduct

Compass Lexecon advises on the economics of anti-competitive agreements between competitors; anti-competitive agreements between suppliers and customers; exclusionary conduct such as through tying and bundling, predatory pricing, conditional rebates; and exploitative conduct, excessive pricing, and unfair trading.

Damages

Compass Lexecon economists estimate potential damages from alleged or proven antitrust infringements, for both defendants and claimants. An integral part of their role involves constructing the counterfactual scenario to understand the impact of the conduct on prices, output, and profits of market participants.

Mergers

Compass Lexecon reviews horizontal and vertical mergers and acquisitions across virtually every industry, with analyses tailored to the relevant jurisdiction(s) and regulatory regime(s). The firm advises on the competition aspects of transactions from conception to completion.
